# ABOUT US

Since 1983, Cassign has been a trusted name in signage throughout Victoria and beyond. As a proud family-owned and operated business, we've built our reputation on quality craftsmanship, exceptional customer service, and deep community roots.

Our commitment to the local community goes beyond business – we actively support local initiatives and proudly employ local talent. This connection to our community drives everything we do and reflects our values of integrity and service.

Operating from our comprehensive production facility, we combine decades of industry experience with modern manufacturing capabilities. Our team's extensive product knowledge ensures you receive expert guidance and the right solution for your needs.

At Cassign, quality isn't just a promise – it's our guarantee. Every product we supply comes with our full warranty, backed by over four decades of experience and a reputation built on excellence.

When you choose Cassign, you're partnering with a business that understands signage inside and out, values lasting relationships, and stands firmly behind every product we supply.

# WHY CASSIGN?

**Approved Traffic Signage Manufacturer**
We are a certified 3M MCS (Matched Component System) manufacturer, ensuring all traffic signage meets the highest industry standards. This certification guarantees compliance with Australian road safety requirements and long-lasting performance.

**Quality Guaranteed**
Every sign we produce undergoes rigorous quality control processes, backed by over 40 years of manufacturing expertise. Our commitment to excellence means you receive products that perform reliably in all conditions.

**Local Manufacturing**
All products are manufactured right here in our Warrnambool facility, supporting local jobs and reducing delivery times. Being locally produced means faster turnaround and the ability to customize orders to your exact specifications.

**Comprehensive Warranty**
We stand behind every product with full warranty coverage, giving you complete confidence in your purchase. Our warranty reflects our commitment to quality and provides peace of mind for your investment.

**Expert Customer Service**
Our experienced team provides knowledgeable guidance from product selection through to delivery. With decades of industry expertise, we ensure you get the right signage solution for your specific requirements.

>> SIGNS THAT
LEAD THE WAY.

# HOW TO ORDER

1. **Select Your Products**
   Browse our catalogue and identify the sign items you require for your project.

2. **Submit Your Order**
   Email product codes, quantities, and freight address (if delivery required) to signs@cassign.com.au

3. **Receive Your Proof & Quote**
   Within 24 hours, you'll receive a detailed quote with itemized pricing and proof markup for your review.

4. **Approve & Pay**
   Upon artwork approval and invoice payment, you will receive either:
   a) Collection notification when your signs are ready for pickup, or
   b) Tracking details to monitor your delivery progress

5. **Put Your Signs to Work**
   Receive your quality signs and get them installed and working for you.

**Direct Expert Support**
Our seamless ordering system connects you directly with experienced signage professionals – you're always speaking to a real expert who understands your needs.

Don't see what you need in this catalogue? **NO PROBLEM – WE'VE GOT YOU COVERED.** Contact us directly anytime to discuss your custom signage requirements. Our team specializes in creating tailored solutions for unique applications.

# OUR GUARANTEE

3M Science. Applied to Life.™

## Permanent reflective signage warranty.

- Full-sign replacement warranty for up to 12 years.
- Available for several classes of reflective sheeting.

**Confidence comes standard with 3M™ Diamond Warranty.**

You need durable, compliant and long-lasting signs that perform to industry specifications. The 3M Diamond Warranty gives you peace of mind that you are delivering the highest level of road safety.

# Adhering to Australian Standard® AS 1319-1994: A Key Consideration

Compliance with Australian Standard® AS 1319-1994 is essential for the design and implementation of safety signs in workplace settings. Extensive research and thoughtful consideration have shaped the designs outlined in this Standard. These signs have been rigorously tested for clarity, creating a universal language of safety that can be understood by individuals of all nationalities, occupations, and locations.

## SIGN MAINTENANCE

Sign maintenance is often neglected and not taken seriously after installation, leading to a lack of cleaning. However, it's essential for ensuring optimal effectiveness, as stated in AS 1319–1994; signs should be kept clean, in good condition, and well-illuminated. Fortunately, Cassign signs are easy to maintain. To clean them, simply use a sponge or soft cloth with warm water and mild detergent. Once cleaned, dry the surface with a clean cloth or chamois. Remember to use non-abrasive cleaners and avoid harsh chemical products for the best results.

## COMPLIANCE WITHIN STANDARDS

Australian Standards AS 1319–1994 specify essential parameters for safety signs in workplace environments. Cassign is dedicated to simplifying compliance by offering an extensive selection of stock signs. If you can't find the specific sign you're looking for in our inventory, our custom sign production team is ready to design and create exactly what you need.

**MANDATORY SIGNS**
These signs instruct individuals to follow specific safety requirements, like wearing head protection.

**FIRE SIGNS**
Fire signs indicate where fire alarms and firefighting equipment are located for quick access.

**PROHIBITION SIGNS**
Prohibition signs clearly state behaviors or actions that are not allowed for safety reasons.

**EMERGENCY INFORMATION SIGNS**
These signs guide individuals to emergency facilities, such as exits and first aid stations.

**WARNING SIGNS**
Warning signs inform about non-life-threatening hazards, promoting awareness to prevent accidents.

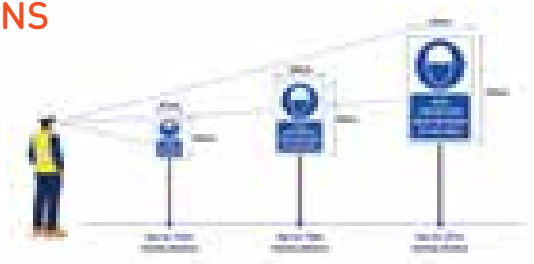

**DANGER SIGNS**
Danger signs warn of life-threatening hazards, ensuring people remain cautious in high-risk areas.

## COLOUR CHART

- **Signal Red** PMS 186c
- **Jade** PMS 349c
- **Sunflower** PMS 136c
- **Bright Blue** PMS 301c

## SIGN SIZE RECOMMENDATIONS

Cassign provides a Sign guide to streamline your selection process, making it easier to identify the size that meets your requirements. To utilize the guide, measure your Viewing Distance and consult the corresponding diagram. Remember, in dimly lit environments, it's advisable to adjust legend sizes by 50% for better visibility.
